Quick Start Guide

1. Point the remote at the projector and press the power button. ⟶

2a. Press the power button on the receiver and select the input device.

2b. The input panel lables match the reciever.
*PC is for the rack computer

3. To use the rack PC press the power button and wait for it to turn on.

Troubleshooting

Q. "I see a blue screen with nothing on it"
A. Make sure **receiver** has been powered on and you have selected the **input** you want.
- Do you still see a blue screen?
*If so press the "**Source Search**" button on the **Projector Remote,** it should auto select **HDMI 1.***

Q. "I don't hear any sound"
A. Make sure the volume is up on the **receiver**.
- If you are using your Laptop make sure you connected the audio connector attached to the VGA cable.

Q. "It still doesn't work!"
A. Power everything off and try steps 1-3 again.
