FJ Longstaffe

We congratulate James Thayer, PhD (Geology) candidate (Department of Earth Sciences, Western University) on receiving the 2023 Kerry Kelts Research Award from the Limnogeology Division, Geological Society of America, at its October 2023 meeting in Pittsburgh, Pennsylvania, USA.

The award is named in honour of the late Dr. Kerry Kelts, a visionary limnogeologist and inspiring teacher, and is given in support of graduate or undergraduate research. James was recognized for his research project: **Reconstructing Holocene hydroclimate in south-central Ontario, Canada from lithostratigraphy, oxygen-isotopes, and pollen.**
