The Department of Paediatrics, Children's Hospital, London Health Sciences Centre, Western University, London Ontario, Canada, is seeking 2 fully certified Paediatric Respirologists to join the section of Paediatric Respirology. The successful candidates will hold a full time clinical academic appointment; salary and rank will be determined by experience and qualifications at the time of appointment. A plan to establish a paediatric sleep lab has received the full support of the department, and expertise in paediatric sleep would be a definite asset. Assistance will be available for immigration and licensing requirements, if applicable.

Children's Hospital is a tertiary care center between Toronto and Winnipeg, serving a population of over 500,000 children and youth. The Respirology Program provides care to children with the full spectrum of airway and lung disorders, and includes a multidisciplinary cystic fibrosis clinic, asthma clinic, a collaborative Paediatric Airway Centre and a paediatric flexible bronchoscopy program. The Respirology Program is very active in undergraduate, postgraduate and continuing medical education. The Department of Paediatrics in London has 69 full time academic physicians, 6 basic scientists and 10 community physicians providing a full array of Paediatric sub-specialty services.

Responsibilities will include:
1. Active participation in team-based health care.
2. Active involvement in teaching, both at the undergraduate and post graduate levels.
3. At least 35% time commitment to research, education and/or administrative activities in the Department, Hospital and/or the University.

Qualifications include:
1. Certification in Paediatrics and Paediatric Respirology by the Royal College of Physicians and Surgeons of Canada. Candidates must hold an MD or equivalent and be eligible for licensing in the Province of Ontario.
2. A keen interest in academic medicine.
3. Ability to collaborate effectively with all other members of the health care team and office staff.

Children's Hospital has 64 general paediatric beds, 12 intensive care beds, 42 neonatal beds and a very active emergency department. Opportunities exist for clinical and basic science research including epidemiological studies with access to population level health administrative databases through the Institute for Clinical Evaluative Sciences (ICES), cystic fibrosis multi-centre clinical research, and cross-disciplinary research with ENT, for example. Clinical research is well supported by the Lawson Health Research Institute as well as Western University, which is a top-ranked research institution with a wide range of academic and professional programs (http://www.uwo.ca/)

London has a population of 500,000 people with the amenities of a big city but the friendliness of a small town, and is located in the heart of the Great Lakes region, 2 hours from Toronto and Detroit. (see http://www.londontourism.ca/ and http://www.goodmovelondon.com to learn more).

Please submit your application, including curriculum vitae, statement of career goals, highlights of accomplishments and three reference letters to:

Guido Filler, MD, PhD, FRCPC
Professor of Paediatrics, Chair/Chief, Department of Paediatrics
Email: guido.filler@lhsc.on.ca

For further information about the position, please contact Dr. April Price, Division Head, Section of Paediatric Respirology, at 519-685-8824, or via email at April.Price@lhsc.on.ca. Applications will be accepted until June 19, 2015.

Please ensure that the form available at http://uwo.ca/facultyrelations/physicians/Application_FullTime_Clinical.pdf is completed and included in your application.

Positions are subject to budget approval. Applicants should have fluent written and oral communication skills in English. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Western University is committed to employment equity and diversity in the workplace and welcomes applications from all qualified individuals, including women, members of visible minorities, aboriginal persons, persons with disabilities and persons of any sexual orientation or gender identity.
