WESTERN UNIVERSITY
CLUSTER OF RESEARCH EXCELLENCE IN COGNITIVE NEUROSCIENCE

WESTERN RESEARCH CHAIRS IN COGNITIVE NEUROSCIENCE

Western University is investing in a Cluster of Research Excellence in Cognitive Neuroscience through the newly established Western Research Chairs program to build on significant research strengths in this area. Details on the Chairs, which are equivalent to Tier I Canada Research Chairs, can be found at [http://www.uwo.ca/research/wcre/](http://www.uwo.ca/research/wcre/). Applications are invited for up to three Western Research Chairs in Cognitive Neuroscience.

Candidates holding a PhD and/or MD, with an outstanding international reputation in cognitive neuroscience, and a well-established externally-funded program of research excellence are invited to apply. Researchers in any area related to cognitive neuroscience will be considered. The Chairs are expected to take a leadership role in building on Western’s research profile and capacity in cognitive neurosciences and related areas of neuroscience research in association with the world-renowned Brain and Mind Institute ([http://www.uwo.ca/bmi/](http://www.uwo.ca/bmi/)). Successful candidates will be appointed at the rank of Associate or Full Professor with tenure, depending on qualifications, and hold an appointment in an appropriate academic department. The Cluster of Research Excellence in Cognitive Neuroscience will be augmented by a $5M investment in infrastructure and additional appointments in cognitive neuroscience, imaging, and related disciplines aligned with the Chairs areas of research interests. Facilities include a full range of high and ultra-high field, research-only, MRI scanners (3T, 7T, and 9.4T), fully equipped, state-of-the-art laboratories for cognitive and behavioural testing, a sleep laboratory, a University Laboratory School, and access to a large neurological patient population in affiliated teaching hospitals.

With a full-time enrolment of about 35,000, Western University is a research-intensive university with a full range of academic and professional programs. General information about the University can be found at [http://www.uwo.ca/](http://www.uwo.ca/). The university campus is in London Ontario, a city of 340,000, located midway between Toronto and Detroit. With parks, river valleys, tree-lined streets, and bicycle paths, London is known as the “Forest City”. London boasts an international airport, galleries, theatre, music and sporting events (see [http://www.goodmovelondon.com/](http://www.goodmovelondon.com/)).

Applicants should forward a letter of interest and a curriculum vitae, along with the names of three referees to:

Dr. John P Capone  
Vice President, Research  
Western University  
London ON N6A 5B7 CANADA  
email: vpr@uwo.ca

Applications will be accepted until the positions are filled.

Applicants should have fluent written and oral communication skills in English. Western University is committed to employment equity and welcomes applications from all qualified women and men, including visible minorities, aboriginal people and persons with disabilities.
