

# BlueII-Bluetooth 10 Watt Speaker (MDBLUEII-BT)

## LAVA Imports Inc.

LAVA Imports Inc. is a global leader in providing technology that's creative and relates to varied cultures. With production facilities overseas, the company's channel includes retailers throughout North America and distributor partners worldwide.

## Mighty Dwarf® Speakers

Named for their compact size and inventive qualities, our new audio systems allow people of all ages to share music or conversation. Wires or no wires. With freedom of movement and expression of sound. Placement of a Mighty Dwarf turns any surface in to a speaker – that's bold and simple.

- Bluetooth enabled speaker allows for wireless pairing to a wide variety of electronic devices.
- Dual output vibration speaker uses the surface it sits on to produce deep, powerful bass tones while a skyward angled tweeter produces sultry high end notes.
- A **built in microphone** allows for wireless conference calling in any environments and settings.
- The speaker is a useful, complementary accessory for the student, business person, traveler or music lover.
- Trilingual gift box packaging with preview window – English, Spanish, French

Manufacturers Suggested Retail Price \$119.99
