## Ancient Cities

Course Outline – Fall 2024

An online, asynchronous course with an in-person final exam

---

### **COURSE DESCRIPTION**

This course will provide a survey of cities of the ancient Mediterranean and West Asia, from the earliest urban settlements to the late Roman Empire. The course will give students an overview of the development of cities in the region over time and an understanding of the interconnectivity of these varied settlements. Students will learn how to analyse relevant evidence, such as the remains of ancient buildings and roads, the remains of implements used in everyday life, artistic representations, and ancient textual evidence. By the end of the course, students will be able to answer questions about the practicalities of city development and building, as well as what these cities reveal about their respective cultures.

Prerequisites: None

### **COURSE OBJECTIVES**

By the end of the course, successful students will:

**\*Preliminary syllabus – some details may change in the final version\***

- 1) Understand the progression of the history of the ancient Mediterranean in a general sense
- 2) Understand relevant archaeological methods for evaluating urban environments
- 3) Be able to identify the ancient sites focused on in the course
- 4) Be able to speak about the development of urban centres in antiquity
- 5) Be able to interpret the broader cultural implications of the material evidence from ancient urban centres
- 6) Understand the cultural influences present between cities of the ancient Mediterranean
- 7) Understand the modern history of archaeology in a general sense and the ethical considerations relevant to the modern archaeologist

## **REQUIRED TEXTS**

This course has the following required text:

Gates, Charles. 2024. *Ancient Cities: The Archaeology of Urban Life in the Ancient Near East and Egypt, Greece, and Rome*, Third Edition. London: Routledge.

Please note: This a brand-new edition of the textbook and has changed considerably from the previous edition. Make sure that you are using the correct edition.

## **EVALUATIONS**

Quizzes	40%	Weeks 3, 5, 7, 9, and 11 (see OWL for more specific time windows)
Discussions	20%	Weeks 2, 4, 6, 8, and 10 (see OWL for more specific time windows)
Final Exam	40%	<b>In-Person</b> As scheduled by the university

For all evaluations, it is the student's responsibility to be aware of the guidelines and deadlines and to ask any questions they have prior to the due date. If accommodation is needed, it is the student's responsibility to arrange this prior to the due date.

### **Quizzes**

There are 5 bi-weekly quizzes in this course. These will be held in weeks 3, 5, 7, 9, and 11 and be available from Monday at midnight until Friday at 5PM during those weeks. Each will focus on the material from the previous two weeks of the course (with the exception of the first quiz, which covers the first three weeks). The lowest grade will be dropped, with each of the remaining four quizzes constituting 10% of the final grade. Students will have a window of a few days within which to complete each quiz, but once started they will be timed. It is up to the student to ensure they have a good internet connection and sufficient time to complete the quiz once started. Further information on the quizzes can be found on OWL.

### **Discussions**

**\*Preliminary syllabus – some details may change in the final version\***

There are five forum discussions in this course. These will take place on weeks 2, 4, 6, 8, and 10 and be available from Monday at midnight until Friday at 5PM during those weeks. Students must make sure to complete their contributions within the given window for each discussion. Each will be worth 5% of the student's final grade and the lowest grade will be dropped. Each will have discussion prompts related to the course material for the students to discuss. The class will be automatically divided into smaller groups for these discussions. Further information on the discussions can be found on OWL.

### **Final Exam**

The final exam will be scheduled by the registrar and be held **in person**. The exam is cumulative and no aids are allowed.

### **MISSED WORK**

Since all quizzes and discussion forums are available to be completed remotely and on the student's own time within a several day window, there will be no extensions or accommodations granted for missed course work except in extreme circumstances.

Please note: the dropped grades for forums and quizzes are meant to help cover disruptions to students' ability to complete their work. These are not meant to be a free dropped grade in addition to missed work. If you choose to skip a quiz/forum early in the term, this might hurt you later if you unexpectedly miss a second one. We will not be granting make ups or extensions for, for example, a student forgetting/mixing up the deadline, being busy with work for other courses, travelling, or forgetting to submit their forum post. If you are worried about any of these happening to you, complete the assessments done early in the week. If you know in advance you will be missing a whole week of the course, you must reach out prior to that week to discuss submitting the work early.

Requests for accommodation should be directed to the instructor for evaluations worth less than 10% (forums). This will only be granted in extreme circumstances if requested after the due date because of the long amount of time each is available for and the dropped lowest grade. For work totalling 10% or more of the final course grade (quizzes), you must provide valid medical or supporting documentation to the Academic Counselling Office of your Faculty of Registration as soon as possible. For further information, please consult the University's medical illness policy at [https://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/accommodation\\_medical.pdf](https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf)

The Student Medical Certificate is available at

[https://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/medicalform.pdf](https://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf)

If you miss the Final Exam, please contact the Academic Counselling office of your Faculty of Registration as soon as you are able. They will assess your eligibility to write the Special Examination (the name given by the University to a makeup Final Exam). You may also be eligible to write the Special Exam if you are in a "Multiple Exam Situation" (e.g., more than 2 exams in 23-hour period, more than 3 exams in a 47-hour period).

## **OWL**

Students are responsible for checking the course OWL site (<https://westernu.brightspace.com/d2l/login>) on a regular basis for news and updates. This is the primary method by which information will be disseminated to all students in the class.

If students need assistance with the course OWL site, they can seek support on the OWL Help page. Alternatively, they can contact the Western Technology Services Helpdesk. They can be contacted by phone at 519-661-3800 or ext. 83800, or with a support ticket.

## **OFFICE HOURS**

I am happy to meet with students who want help succeeding in the course. Since this is an asynchronous, online course, office hours will be online on Zoom and by appointment. Please send an email to me or the TA if you would like to meet for any reason during the semester.

## **EMAIL**

I will do my best to answer all emails within 24 hours on weekdays and by the next workday during weekends or holidays (i.e. if you email me after 5 PM on a Friday, you might not get a response until Monday). If I do not respond within this timeframe, feel free to resend your email to ensure a timely response.

Please send all emails through your Western email address to mine. I will not respond to emails sent from personal accounts, since I cannot verify your identity (and many of these are sorted to spam).

In accordance with policy ([https://www.uwo.ca/univsec/pdf/policies\\_procedures/section1/mapp113.pdf](https://www.uwo.ca/univsec/pdf/policies_procedures/section1/mapp113.pdf)), the centrally administered e-mail account provided to students will be considered the individual's official university e-mail address. It is the responsibility of the account holder to ensure that e-mail received from the University at their official university address is attended to in a timely manner.

### **Academic Offences**

**Scholastic offences** are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

[http://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/scholastic\\_discipline\\_undergrad.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf).

Plagiarism includes, but is not limited to, the unauthorized use of AI tools such as ChatGPT to create content that is submitted as one's own. In this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. Students must however critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, however students are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments should reflect the students own thoughts and independent written work.

Quizzes are open-book but are meant to be taken by the student without interaction with other students. Forbidden collaboration on quizzes includes, but is not limited to, the dissemination or reception of questions or answers from in-progress quizzes between students and cooperation or discussion between students while writing the quizzes.
