

Division Chair/Division Head/Chief and Academic Orthopaedic Surgeon
Department of Surgery, Division of Orthopaedic Surgery
Western University
St. Joseph's Health Care London, London Health Sciences Centre

Posting Date: December 20, 2023

Position Profile: The Department of Surgery at the Schulich School of Medicine and Dentistry, Western University, is seeking an academic Chair/Division Head/Chief for the Division of Orthopaedic Surgery with a vision to shape the Division for a five-year appointment, renewable once. This role is a full-time, limited term, clinical academic appointment at the rank of Associate Professor, or a continuing clinical academic appointment at the rank of Associate Professor or Full Professor, depending upon experience and qualifications at the time of appointment. The desired leadership attributes and abilities of the Division Chair/Division Head/Chief include: established excellence in the clinical, education and research domains; openness to innovative ideas, visionary and strategic thinking; excellence in leadership, communication, collaboration, advocacy skills to advance the academic and clinical mission; ability to support faculty development; a focus on and demonstrated commitment to equity, diversity, inclusion, and decolonization initiatives; and transparent and strategic decision-making.

The successful candidate would also be appointed as the J.C. Kennedy Chair in Orthopaedic Surgery and would be expected to:

- Oversee all aspects of Divisional activities, including teaching, research, and clinical care for the Division of Orthopaedic Surgery,
- Foster a strong Divisional educational training program and ensure availability of adequate resources to meet the needs of trainees,
- Take an active role in encouraging and supporting innovative research activities in the Division of Orthopaedic Surgery, and
- Maintain a strategic Division human resource plan while ensuring the recruitment, retention, and mentorship of faculty members.

Division Profile: The Division of Orthopaedic Surgery is affiliated with London Health Sciences Centre and St. Joseph's Health Care London. The Division has strong clinical, education and research interests and an accredited Royal College residency training program. The Division consists of 32 full-time faculty and 26 residents providing care across two organizations, three hospital sites, and a stand-alone surgicentre. The Division comprises seven clinical teaching units in the areas of hip and knee reconstruction, spine, sports medicine, hand and upper limb, foot and ankle, paediatrics and orthopaedic trauma.

Academic and Clinical Expectations: The successful candidate must have leadership and administrative skills and experience; including interacting with a multidisciplinary team of individuals in associated clinical Divisions and Departments, and leadership. The position involves overseeing the evaluation and management of orthopaedic surgical patients, as well as the divisional program training and research committees. The successful candidate must be interested in pursuing a strong academic leadership career and will be expected to guide and participate actively in the Division's academic, research, quality, and education initiatives. Applicants must be nationally or internationally recognized experts in their field and demonstrate the ability to publish in the highest quality academic and subspecialty outlets.

Qualifications: The successful candidate must have an MD or equivalent; have completed an accredited orthopaedic surgery training program and additional fellowship training; have demonstrated excellence in the clinical, education, and research domains; and be eligible for licensure in the Province of Ontario.

Compensation Details: Compensation for this position will be commensurate with qualifications and experience and will be primarily composed of the following sources: Fee for service (OHIP billings), Alternative Funding Plan, academic salary, workers safety insurance board and on-call reimbursement.

The City: London, Ontario is Canada's 10th largest city with a population of 400,000, a catchment area of 2.4 million, and is situated in southwestern Ontario between Toronto and Detroit. The region has a strong economy and excellent educational opportunities. It is a safe and diverse city and its numerous parks, trails, recreational, cultural and sporting opportunities make it an attractive place to live.

The University: Western University is a research-intensive university with full-time enrolment of 34,000 students and a full range of academic and professional programs. The Schulich School of Medicine & Dentistry provides an outstanding educational experience within a research-intensive environment where tomorrow's physicians, dentists and health researchers learn to be socially responsible leaders in the advancement of human health.

London Health Sciences Centre: With roots dating back a century and a half, London Health Sciences Centre (LHSC) is one of Canada's largest research-intensive acute tertiary and quaternary care teaching hospitals. LHSC is also home to Children's Hospital, one of just four acute tertiary care paediatric hospitals in the province, and the Nazem Kadri Surgical Centre – Ontario's first high-efficiency ambulatory surgical centre that includes orthopaedic sports, foot and ankle, and orthopaedic trauma surgeries. Attracting top clinicians and researchers from around the globe, LHSC is London's largest employer with a 15,000-person strong team that excels in providing specialized care for more than one million patients visits each year. This includes specialized orthopaedic surgery for both adult and paediatric patients, inclusive of hip and knee reconstruction, spine, sports medicine, foot and ankle, and orthopaedic trauma. A leading academic health organization, LHSC is committed to collaborating with patients, families and system partners to deliver excellent care experiences and outcomes, educate the health-care providers of tomorrow, and advance new discoveries and innovations that optimize health and wellbeing for all.

St. Joseph's Health Care London: Renowned for compassionate care, St. Joseph's is dedicated to helping people live to their fullest by minimizing the effects of injury, disease, and disability through excellence in care, teaching, and research. St. Joseph's is home to the Roth McFarlane Hand and Upper Limb Centre (HULC). HULC is a respected, world renowned centre of excellence in education, research, and the diagnosis, care and treatment of patients with complex conditions affecting hands, wrists, elbows and shoulders, complex wound care and numerous other conditions requiring specialized care. Serving local, regional, and provincial populations in an evolving and challenging clinical academic environment, St. Joseph's cares for its communities, reflecting its faith-based traditions and values.

To apply: Applications will be accepted until the position is filled. Review of applications will begin after January 21, 2024 with an anticipated start date of July 1, 2024 or as negotiated. Interested candidates are to provide:

- A letter of interest and statement of academic qualifications
- A curriculum vitae,
- The names and addresses of three references, and
- Complete and include the application form at the following link:
