

**Department of Medical Imaging, Neuroradiology Division  
Schulich School of Medicine and Dentistry, Western University  
St. Joseph's Health Care London & London Health Sciences Centre**

**ACADEMIC POSITION: Neuroradiologist (Diagnostic)**

The Department of Medical Imaging (<https://www.schulich.uwo.ca/medimaging/>) has a need for a diagnostic Neuroradiologist. The successful candidate will have the opportunity to engage in a blended academic practice that spans the academic - community hospital continuum.

**Academic and Clinical Environment:** The Department of Medical Imaging, Schulich School of Medicine and Dentistry, Western University ([www.schulich.uwo.ca/medimaging](http://www.schulich.uwo.ca/medimaging)) has clinical activities based at St. Joseph's Health Care London ([www.sjhc.london.on.ca](http://www.sjhc.london.on.ca)) and at London Health Sciences Centre (LHSC) ([www.lhsc.on.ca](http://www.lhsc.on.ca)); with research activities based in the Lawson Research Institute ([www.lawsonresearch.ca](http://www.lawsonresearch.ca)) and at the Robarts Research Institute ([www.robarts.ca](http://www.robarts.ca)). The academic training program is Royal College accredited and provides medical imaging education at the undergraduate and postgraduate levels.

The faculty consists of 65 Radiologists, 8 Nuclear Medicine physicians and 9 Imaging Scientists providing a subspecialty imaging program to a catchment population of approximately 1.5M people. The Department provides regional diagnostic imaging and interventional programs and has strong relationships with community hospital partners.

**Position Profile:** Limited Term Clinical Academic appointment at the rank of Assistant or Associate Professor in the Department of Medical Imaging at the Schulich School of Medicine & Dentistry. The successful candidate will take an active role in the Citywide Neuroradiology Sub-Specialty Division and must be dedicated to outstanding quality in clinical operations, demonstrate leadership, teaching and/or research abilities. The successful candidate will have completed a Diagnostic Neuroradiology Fellowship and must have an interest in academic and community radiology. The academic component of this position is predominately located at St. Joseph's Health Care London. The community practice includes several Independent Health Facilities (IHF's) within London operated by London X-ray Associates and provides imaging services to multiple community hospitals outside of London. This hybrid practice allows regional care to be delivered using a "hub and spoke" model. **Protected academic time to support research, teaching, and administrative endeavors is provided.**

**Neuroradiologist (Diagnostic) Division:**

The Neuroradiology Division encompasses a full complement of diagnostic and interventional procedures and is comprised of 14 neuroradiologists across St. Joseph's Health Care London and London Health Sciences Centre. The Department of Clinical Neurosciences has a disseminated model across London. The London Health Sciences Centre has specialty care in neurology that includes epilepsy, movement disorders, the regional stroke program, regional multiple sclerosis clinic, neuro-critical care, amyotrophic lateral sclerosis (ALS) and motor neuron diseases. Neurosurgical care includes cerebrovascular disease, intra-cranial skull-based tumours, brain tumour surgery, spinal surgery trauma, neurotology, audiology and cochlear implant programs. Pediatric neurologists and neurosurgeons have clinical expertise in a variety of areas including epilepsy, cerebral palsy, neurometabolic and neuromuscular disorders, as well as acquired brain injury.

The successful candidate is expected to provide a full range of diagnostic clinical services required of a Neuroradiologist including plain X-ray, CT and MRI expertise. The candidate will also have ability and interest in performing non-neuro radiology interpretations in the community outreach practice. The candidate may also participate in percutaneous spinal procedures such as epidural / facet injections, image-guided lumbar punctures, and myelography.

**Qualifications:** The successful candidate will be appointed to a full-time Clinical Academic appointment in the Department of Medical Imaging at the Schulich School of Medicine & Dentistry. The successful candidate will hold certification in Diagnostic Radiology with the Royal College of Physician and Surgeons of Canada or international equivalent and meet the credentialing requirements of St. Joseph's Health Care London, LHSC and London X-Ray Associates' affiliated community hospitals. Successful completion of a Fellowship in Neuroradiology is expected. The skills to function as a Breast Imaging Radiologist in the community are considered a desirable asset for the Neuroradiologist position.

The successful candidate will be a self-starter, a team player and willing to participate in all aspects of academic diagnostic imaging. The latter includes the provision of on-call services as required by the Chair/ Department Head of the academic department and of the community practice served by London X-Ray Associates. S/he will have demonstrated strong commitment to patient care, research and teaching through previous professional activities. Consideration of applicants will include an assessment of previous performance in teaching, research, and health care leadership, as well as qualifications (including subspecialty and enhanced training), experience, and interpersonal skills.

**Compensation Details:** Compensation for this position will be commensurate with qualifications and experience. The successful candidate will be considered eligible for a partnership position in London X-Ray Associates, after completing a 12-month probation, through which clinical billings (fee for service) and Alternative Funding Plan will be administered.

**The City:** London, Ontario. London is Canada's 11<sup>th</sup> largest city with a population of almost 450,000, serving a catchment area of roughly 1.5 million. London is situated in southwestern Ontario, within a short driving distance of Toronto and Detroit. The region has a diverse economy and excellent educational opportunities. It is a safe and diverse city and its numerous parks, trails, recreational, cultural and sporting opportunities make it an attractive place to live.

**The University:** With annual research funding exceeding \$220 million, and an international reputation for success, Western ranks as one of Canada's top research-intensive universities. Our research excellence expands knowledge and drives discovery with real-world application. Western also provides an exceptional employment experience, offering competitive salaries, a wide range of employment opportunities and one of Canada's most beautiful campuses.

**St. Joseph's Health Care London:** St. Joseph's Health Care London is primarily an ambulatory care centre and provides patient care that complements the acute care hospitals of LHSC. Current clinical imaging equipment includes two 1.5T MRI, one 320 slice CT, modern ultrasound, and new state of the art mammography equipment including digital tomography and contrast dual energy mammography. The Department is upgrading to state-of-the-art paired 3T and 1.5T MRI, and state-of-the-art X-ray equipment. Research imaging equipment includes 256 slice CT, and a 3T PET/MR. A PET/CT serves clinical and research functions.

**London X-Ray Associates:** LXA is proud to have served London Ontario and region for over 92 years. We have a long history of teaching and providing diagnostic medical imaging services in the academic medical imaging department, 10 community hospitals and 5 Independent Health Facilities clinics in southwestern Ontario. We are a collegial group of radiologists, technologists and administrative professionals who are dedicated to serving patients, physicians and hospitals in the communities where we work. We strive to be the best at what we do. We see our responsibility as both humbling and inspiring. Respect is the cornerstone of fostering our people-centric culture.

**For further information:** Interested candidates are invited to contact the Neuroradiology Division Head, for information on the Divisional structure and responsibilities; the Site Director at St. Joseph's, for information on St. Joseph's Health Care London; and the Chair / Department Head, to discuss the Department strategy and direction.
