

**Department of Medicine, Division of Cardiology  
Schulich School of Medicine & Dentistry, Western University  
ACADEMIC POSITION – Clinician Scientist  
INTERVENTIONAL CARDIOLOGY**

The [Department of Medicine](#), Division of Cardiology, Schulich School of Medicine & Dentistry, at Western University and London Health Sciences Centre, and St. Joseph's Health Care London are seeking a physician for a full-time clinical academic appointment to Western University. Applicants should be certified, or eligible for certification, in Cardiology by the Royal College of Physicians and Surgeons of Canada, or equivalent. Candidates must have an MD, or equivalent, and must be eligible for licensure by the College of Physicians & Surgeons of Ontario (CPSO) in the province of Ontario.

The [Division of Cardiology](#) at Western is well-recognized and respected both nationally and internationally. The Division's more than 30 physicians provide secondary, tertiary, and quaternary cardiovascular services for the City of London, Southwestern Ontario and beyond. The Division has the largest Royal College Subspecialty Training Program in the Department of Medicine. Research expertise within the Division is extensive.

The Division of Cardiology is seeking an academic cardiologist whose clinical focus is Interventional Cardiology with specific expertise in coronary artery interventions. The successful candidate must have completed fellowship training in Interventional Cardiology and be proficient in percutaneous coronary interventions. They must have a strong interest in fostering a more collaborative and programmatic approach to coronary interventions and working harmoniously with other cardiovascular division members.

Applicants for this Clinician Scientist academic position must have a very strong committed clinical research focus. They must have experience and a track record of leading and conducting clinical research and innovation. The applicant must have demonstrated research productivity with the following (1) a strong record of peer-reviewed publications in high quality publications, with a number of publications as the first or senior author; (2) evidence of success in obtaining regional and national external peer-reviewed funding; (3) demonstrated ability to collaborate with peers (as attested by references) 4) Demonstrated national-level leadership and influence on clinical practice, as evidenced by serving on expert data, research, or guideline-writing committees for national specialty societies. 5) Evidence of commitment to leadership development, including the successful completion of a formal, peer-reviewed national leadership program

It is essential that the applicant possess a strong ability to collaborate with colleagues and have the ability to successfully design and model prospective trials, supported by formal, peer-reviewed training in data-enabled trial design, and a proven track record of leading and executing complex, high-impact retrospective clinical studies that will enhance research productivity in the Division. Applicants must possess advanced methodological skills in applied biostatistics, health data science and training in clinical trials, and be committed to leading a cardiovascular clinical trials program. They would also serve as a resource for researchers in cardiovascular sciences. They would be expected to foster an environment that encourages others working in the cardiovascular sciences field, such as heart failure, cardiac electrophysiology, cardiovascular surgery, cardiac imaging, data science and artificial intelligence, among others, to bring forth clinical research ideas that have the potential to be developed into clinical research studies. Applicants are also expected to possess a proven track record of teaching and mentoring, including successfully supervising graduate trainees (e.g., MD, PhD) to completion. They will have a limited role in teaching at the undergraduate and graduate levels and to supervise graduate trainees. Rank, term of appointment and salary will be commensurate with qualifications and experience. Financial remuneration will comprise of fee for service, alternative funding plan and academic salary. Consideration of applicants will include an assessment of previous performance in teaching, research, health care leadership, qualifications (including subspecialty and enhanced training), experience and interpersonal skills.

The successful candidate will hold a limited term academic appointment at the rank of Assistant Professor, or a continuing academic appointment at the rank of Associate Professor depending on qualifications and experience. Information about the Department of Medicine and Division of Cardiology may be found [here](#).

The successful candidate will join a busy academic practice of eight other academic Interventional Cardiologists working within a teaching hospital environment that includes coronary and structural interventional cardiology fellows. Primary clinical duties will involve management of cardiology patients in the cardiac catheterization laboratory, ambulatory Cardiac Clinic and assigned weeks of general cardiology in-patient clinical teaching unit coverage and coronary care unit.

The Schulich School of Medicine & Dentistry at Western University is one of Canada's preeminent medical and dental schools. Established in 1881, it was one of the founding schools of Western University. For more than 130 years, the School has demonstrated a commitment to academic excellence and a passion for scientific discovery. Throughout its history, Schulich School of Medicine & Dentistry has helped educate generations of physicians, dentists, scholars and scientists whose collective work has transformed the practice of medicine and dentistry, here in Canada and around the world. Faculty, students, and alumni continue to fulfill their responsibilities as global leaders by sharing their knowledge and expertise for the benefit of all.

Western University is located in London, Ontario, with a metropolitan census of 515,000. London boasts an extensive educational and health care community including three teaching hospitals, two research institutes, an Institute for Clinical Evaluative Sciences (ICES) node, and an academic health sciences network across Southwestern Ontario. With full time enrollment of 32,000, Western graduate students from a range of academic and professional programs. Details about Western University's Schulich School of Medicine & Dentistry may be found at [www.schulich.uwo.ca](http://www.schulich.uwo.ca); Western University at [www.uwo.ca](http://www.uwo.ca); London Health Sciences Centre at [www.lhsc.on.ca](http://www.lhsc.on.ca); and St. Joseph's Health Care at [www.sjhc.london.on.ca](http://www.sjhc.london.on.ca).

Western University has been committed to serving our communities through the pursuit of academic excellence and by providing students, faculty, and community members with life-long opportunities for intellectual, social, and cultural growth. We seek excellent students, faculty, and staff to join us in what has become known as the "Western Experience" - an opportunity to contribute to a better world through the development of new knowledge, new abilities, new connections, and new ways to make a difference. Western University delivers an academic experience second to none. Western challenges the best and brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since its establishment, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities. With annual research funding exceeding \$220 million, and an international reputation for success, Western ranks as one of Canada's top research-intensive universities. Our research excellence expands knowledge and drives discovery with real-world application.

Western, like many postsecondary institutions in Canada, is moving beyond sole reliance upon Indigenous self-identification in its hiring processes. This is to safeguard against the use of incorrect, incomplete, or misleading information in circumstances in which a candidate has made a declaration of Indigenous citizenship or membership. Candidates who are invited for an interview or who are short-listed, and who have made a declaration of Indigenous citizenship or membership for material advantage at Western, including where required or preferred for the position, will be asked to have their declaration of Indigenous citizenship or membership affirmed through a relational accountability process, led by the Office of Indigenous Initiatives (OII), that is consistent with Indigenous ways of knowing, being, and doing. Please contact the OII directly for details on the affirmation processes: <https://indigenous.uwo.ca/>. The policy can be viewed at: [POLICY 1.58 - Affirming Declarations of Indigenous Citizenship or Membership at Western University](#).

Those interested in applying for this position should forward a Letter of interest/ Statement of Academic Qualifications, Curriculum Vitae, a brief overview of past and current research program and accomplishments, the names and contact information for three (3) references who have worked with the applicant over the last two (2) years and at least one (1) referee must hold a leadership appointment. The applicant should also complete, sign and include the application form available through this [link](#) to complete the application package.

All documentation should be submitted to the:

Department of Medicine Chair's Office  
Schulich School of Medicine & Dentistry, Western University  
LHSC – Victoria Hospital; 800 Commissioners Road East  
London, ON N6A 5W9
