

**Department of Clinical Neurological Sciences, Division of Neurology
Schulich School of Medicine & Dentistry, Western University
Clinical Academic Position – Co-Director, Epilepsy Program/Director, EEG Laboratory**

The Department of Clinical Neurological Sciences at the Schulich School of Medicine & Dentistry and the London Health Sciences Centre is seeking a full-time Neurologist/Epileptologist to take on the roles of Co-Director of the Epilepsy Program and Director of the Electroencephalography (EEG) Laboratory. The candidate will fill a clinical academic role at Western University. Applicants should be certified, or eligible for certification in Neurology by the Royal College of Physicians and Surgeons of Canada, or equivalent. Candidates must have an MD, or equivalent, and must be eligible for licensure in the province of Ontario. The successful candidate will be appointed at the rank of Associate Professor/MD in a limited term (Clinical Academic) appointment or at the rank of Associate or Full Professor in a continuing (Clinical Academic) appointment, depending on qualifications and experience.

Western University delivers an academic experience second to none. Western challenges the best and the brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since 1878, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities.

The Schulich School of Medicine & Dentistry at Western University is one of Canada's preeminent medical and dental schools. Established in 1881, it was one of the founding schools of Western University and is known for being the birthplace of family medicine in Canada. For more than 130 years, the School has demonstrated a commitment to academic excellence and a passion for scientific discovery. Throughout its history, Schulich Medicine & Dentistry has helped educate generations of physicians, dentists, scholars and scientists whose collective work has transformed the practice of medicine and dentistry, here in Canada and around the world. Faculty, students and alumni continue to fulfill their responsibilities as global leaders by sharing their knowledge and expertise for the benefit of all.

The Epilepsy program in London, Ontario is one of the largest and most comprehensive in Canada. It has an 11-bed epilepsy monitoring unit, with capability to do intracranial recordings, both SEEG and subdural. Excellent support in terms of advanced imaging, neuropsychological services and neurosurgery is available. An average of 120 epilepsy surgery procedures are performed per year. The Epilepsy Program is considered a "Regional Epilepsy Surgery Centre of Excellence" by the Province of Ontario and serves as referral for most of southwestern Ontario as well as other regions of the Province. In addition, referrals are also received from outside of Ontario. Active areas of research include imaging, epidemiology, neurophysiology, and clinical trials. There is a solid and fluid relationship with the imaging laboratories at the Robarts Research Institute and the Brain and Mind Institute, as well as potential collaborations with basic science and other specialties at Western University.

The successful candidate will have an outstanding record of academic and clinical excellence. It is anticipated that the candidate will have demonstrated academic excellence based on productivity and impact in research combined with a strong track record of leadership. In association with the other Co-Director (Epilepsy Surgeon), the candidate is expected to oversee all academic and clinical activities within the Epilepsy Program at the London Health Sciences Center, which includes caring for adults with epileptic disorders in the inpatient and outpatient setting, teaching students at the undergraduate and postgraduate levels, as well as supervising or co-supervising Master's, PhD, and Postdoctoral students.

Compensation will be based on qualifications and experience and will be composed primarily of the following sources: fee for service, alternative funding plan and academic support.

Interested candidates should submit a letter of intent and accompanying curriculum vitae, along with the names and addresses of three references to be contacted, to:

*Department of Clinical Neurological Sciences
