

Introduction

- Children with Specific Language Impairment (SLI) unexpectedly fail to develop language.
- Examining data from children with SLI in a specific language (Arabic) can inform theoretical perspectives of this disorder.
- Several theories have been advanced to explain the observation of disproportionate deficits in grammar among English speakers of SLI.
- Consideration of the extent to which such theories are consistent with observations of SLI groups speaking languages other than English may help to identify potential universal deficits in SLI.

Purpose of the Study

This study provides a review of available data on the characteristics of Arabic speakers with SLI, and critically evaluates the findings in light of current theories of SLI.

Arabic Language

- Arabic is a Semitic language
- Root and pattern language
- Complex interaction between syntax, morphology, and phonology
- Rich bound morphology
- Intricate verb system
- Null subject prosperities
- Lack of an infinitival form

Table 1. Verb paradigm for **r-s-m** (draw)

Person	Gender	Present	Past	Imperative
First	Sing.	?arsum	rasmt	
	Plur.	nirsum	rasamna	
Second	Masc. sing.	tirsum	rasamt	?rsum
	Fem. sing.	tirsumi	rasmti	?rsumi
Third	Plur.	tirsumu	rasamtu	?rsumu
	Masc. sing.	yrum	rasm	
	Fem. sing	tirsum	rasamt	
	Plur.	yirsumu	rasamu	

Common Error Type observed in Arabic-speaking children with SLI

Tense

Substitution:

a) Tense / Imperative errors

katab
He wrote

?uktub
Write! [He]

?uktubi
Write! [She]

?uktubu
Write! [They]

b) First person singular present / Imperative errors (homophonous forms)

?aktub
I am writing

?aktub
Write!

c) Present / past errors

yiktub
He is writing

katab
He wrote

Subject-verb agreement

a) Person agreement errors:

Hua yakul
He is "eating" [He is]
(3 person sing.)

Hua ?akul
He is "eating" [I am]
(1 person. sing.)

b) Number agreement errors: (singular for plural)

Huma yaklu
They are "eating" [They are]

Huma yakul
They are "eating" [He is]

c) Gender agreement errors

Hya yakul
She is "eating" [He]

Hua takul
He is "eating" [She]

Definite article (omission)

Al madrasah
The school

madrasah
school

Prepositions (omission / substitution)

halyb bi shukulata
Milk with chocolate
(Chocolate milk)

halyb Ø shukulata
Milk chocolate

Conclusions

- SLI errors in Arabic occur in several parts of speech: verb tense and agreement, articles, prepositions
- Patterns requiring more marking are reduced to fewer and/or more frequently occurring patterns
- Grammatical complexity of pattern predicts most SLI errors in Arabic
- Error types differ from English, however, complexity of the form accounts for many errors across languages
