## Foundational Concepts of Professional Nursing Practice N1040/ NRSG-7105

## **Calendar Description:**

Students critically examine the historical development of nursing and the framework for Registered Nursing practice, including the philosophical, theoretical, and ethical tenets of the role. Using a variety of theories and conceptual frameworks, students acquire an understanding of how individual values, beliefs, perceptions, and experiences influence perspectives and nursing practice.

## Short Title: Nursing Practice Foundations

**Prerequisite(s):** Registration in Year 1 of the Western-Fanshawe Collaborative BScN Program

Extra Information: 3 lecture hours

Course weight: 0.50

## **Expanded Description:**

Being and becoming a nurse involves developing knowledge, skill, artful and reflective practice, and an understanding that being a professional nurse is a commitment to lifelong learning and reflexivity. Students will critically examine the historical development of nursing and the framework for current Registered Nursing practice, including the philosophical, theoretical, and ethical tenets guiding nursing practice. Using a variety of theories and conceptual frameworks, students will acquire an understanding of how individual values, beliefs, biases, and experiences influence one's perspectives and nursing practice and problematize their own position to norms, power, and privilege. Students will begin to explore how socio-cultural, political and historical systems have shaped their identities and throughout this course will begin to consider a professional identity grounded in a nursing disciplinary lens. How nurses think and what nurses bring to the domain of human experience in health and illness will be discussed through case studies, guest speakers and interactive activities. Drawing on professional nursing bodies, nursing students will gain an understanding of the core values and principles that constitute nursing's professional and unique disciplinary angle of vision.

#### **Course Learning Outcomes:**

Successful students will be able to:

- 1. Examine how the historical development of the nursing profession and how history has shaped current nursing perspectives and practice.
- 2. Explain ways that diverse perspectives and theories are used in the nursing profession and nursing practice.
- 3. Explore how the nursing mandate, including ways of knowing, values and professional roles, influences client care in the 21<sup>st</sup> century.

- 4. Describe approaches to nursing practice that contribute to person-centered care and the therapeutic nurse-client relationship
- 5. Explain how professional nursing bodies regulate and support nurses and the public to ensure competent, safe, legal and ethical practice.
- 6. Describe ways critical thinking and critical reflection are used in nursing practice.
- 7. Critically examine how values, beliefs, and assumptions shape the formation of one's professional nursing identity.
- 8. Explore various forms of racism and discrimination in nursing and health care that privilege ways of knowing.
- 9. Describe interprofessional collaborative practice and the role of nurses within intra/interprofessional team.

# Entry-to-Practice Competencies for Registered Nurses (CNO, 2019) addressed in the course

List examples of competencies that are *most* relevant to the course by number (i.e., #1.1,2.5,3.2, etc.)

1. Clinician: 1.22, 1.26, 1.3

2. Professional: 2.2 2.4 2.5 2.6 2.7 2.9 2.12

Communicator: 3.3 3.5
 Collaborator: 4.3 4.4 4.5

5. Coordinator:

6. Leader: 6.1 6.3 6.6 6.9 6.10 7. Advocate: 7.3 7.4 7.11 7.14

8. Educator:

9. Scholar: 9.1 9.2 9.3 9.8

#### **Course Materials:**

Required: No required textbook

#### Recommended:

American Psychological Association. (2020). *Publication Manual of the American Psychological Association*. (7th ed.). American Psychological Association.

#### **General Process**

Following the BScN program policy manual, weekly attendance to class is mandatory and necessary to ensure success in the course. Students must ensure they do not make appointments during class and lab times by referring to their semester's class/course schedule to ensure they attend all classes. Please refer to the BScN program policy manual to learn about general attendance expectations and the process to follow when absence from class is necessary due to

extenuating circumstances. Students are responsible for knowing the attendance policy and following due process if they need to be absent from a class/lab due to an extenuating circumstance.

Students are expected to do the weekly course required readings found in the learning activities in preparation for class every week. Students are responsible for searching and reading all the required course weekly readings using the links provided in learning activities, and PowerPoints on our course site. Library services are available at Fanshawe and Western. In accordance with copyright law, faculty will post any required readings that are not easily available to students via the links and library resources. If you are unsure about how to access the resources, you must contact the library to obtain the necessary assistance.

Students must check the FOL (Fanshawe) or OWL Brightspace (Western) course site often to ensure they are up to date with course-related information. Correspondence with the course professor must take place within the academic institution email system. Do not use personal or other email accounts to communicate with faculty.

## **Opportunities to Demonstrate Learning**

Students are responsible and expected to read all the information about assignments found on the syllabus, as well as all the relevant content about assignments and marking rubrics posted on FOL including weekly PowerPoint class content. Important assignment information will also be discussed during class by the course professor. If any information about assignments is still not clear, students must clarify their understanding with the professor well ahead of due dates.

Email the course professor to set up an appointment and discuss any challenges in the course and with assignments. Emails will be checked and answered Monday to Friday from 0800-1700; please allow 48 hours for a reply Monday to Friday from 0800-1700. Students must make sure they are comfortable using FOL (Fanshawe) or Owl Brightspace (Western) before submitting assignments. They must contact IT, helpdesk, or the Fanshawe ambassador about any challenges including assignment submission. Therefore, students must allow enough time so they submit assignments on time and avoid late penalties in case they need to contact IT regarding any challenges they may encounter with their submissions.

Submit assignments to the course site following the instructions regarding the correct files you must submit (word files, jpgs, PDF depending on the assignment). FOL is not compatible with any apple products. Contact IT if you use apple to get FOL compatible programs.

Weekly classes and required course readings will help students to prepare assignments. However, students are responsible for organizing their time as well as doing the necessary research and finding resources (i.e. consulting with the librarian and writing center staff) to meet their learning needs in order to be successful completing assignments.

#### **Methods of Evaluation**

Percentage of Course Grade*	Assignment Name	Due
20%	Quiz #1 (weeks 1-4)	
20%	In Class Case studies (x 2 Classes 10% each)  Week 7 Ethics Week 12 Safe Nursing Practice	
20%	Quiz #2 –(weeks 5-8)	
5%	PEP Module 5: Reflective Practice	
35%	Final Exam	

Title: Quiz #1

Weight: 20% of course grade

**Due:** 

The purpose of this assignment is to:

- Allow students to demonstrate understanding of theoretical course content
- Begin to develop knowledge and skill in answering NCLEX-style questions

Quiz #1 will be completed online via Brightspace. This quiz will consist of multiple-choice questions that will test content from classes and readings from weeks 1-4.

**Title: In Class Case Studies** 

Weight:  $2 \times 10\% = 20\%$  of course grade

Due:

The purposes of these case studies are for you to:

- critically think and apply theory and course concepts to specific nursing situations
- engage in group work with your classmates

Working in groups students will complete an assignment following their theory classes on Weeks 7 and 12 of the course.

Title: Quiz #2

Weight: 20% of course grade

Due:

The purpose of this assignment is to:

- Allow students to demonstrate understanding of theoretical course content
- Begin to develop knowledge and skill in answering NCLEX-style questions

Quiz #2 will be completed online via Brightspace. This quiz will consist of multiple-choice questions that will test content from classes and readings from weeks 5-8.

Title: Preceptor Education Program (PEP) Module 5: Reflecting Practice

Weight: 5% of course grade

Due:

Students will navigate to <a href="https://www.preceptor.ca/">https://www.preceptor.ca/</a> and complete module #5 titled Reflecting Practice. Students will then take the certificate of completion they receive from completing the module and upload it to Brightspace assignment folder prior to the deadline.

**Title: Final Exam** 

Weight: 35% of course grade

Date:

The purpose of this assignment is to:

- Allow students to demonstrate understanding of theoretical course content
- Begin to develop knowledge and skill in answering NCLEX-style questions

This exam will be written in-person. It will consist of multiple-choice questions and will test content from classes and readings from the entire course

## Class Reading(s):

## Final Exam – Exam week

#### **Policies**

All policies related to assignments are in the Undergraduate BScN Programs Manual on the Undergraduate Student Information site.

## **Assignments and Exams**

Please refer to the Undergraduate BScN Programs Manual for UWO academic guidelines for penalties for late assignments, re-grading of assignments, and the protocol for missed mid-term or final exams. The Undergraduate BScN Programs Manual is found at <a href="School of Nursing">School of Nursing</a> Policies

#### Academic Accommodations vs. Academic Consideration

Academic accommodation consists of formal arrangements made through Western's Accessible Education department that allow a student with a disability a fair opportunity to engage in academic activities, fulfill essential course, and program requirements. Students request academic consideration through their academic advisor, for relief such as extensions, make-up dates, etc. and are 9 The Western-Fanshawe Collaborative BScN Program N1080/NRSG-7069 HHA I 2024-2025 9 required to provide their academic advisor with The Western-Fanshawe Collaborative BScN Program with documentation to support their request. Students should not contact their course instructors to request academic consideration, nor should they send personal and/or health information/documentation to their instructors. Further information may be obtained at: <a href="https://www.ca/fhs/nursing/undergrad/academic/consideration/index.html">https://www.ca/fhs/nursing/undergrad/academic/consideration/index.html</a>

#### **Review of Graded Assignments**

After a graded assignment is returned, a student's first step is to take time to reflect on the assignment description in the syllabus, on the feedback provided by the original marker within the assignment, and on the marking rubric. If a student cannot understand the meaning or intent behind the feedback received, they may submit a written request to the original marker for an informal consultation to review the assignment grade. The request must include documentation of grounds, based on the marker's feedback, to support the assignment review. An assignment will not be reviewed simply because a student is unhappy with the grade received, or they believe the mark does not reflect the effort they put into completing the assignment.

Students who need assistance with their writing skills should contact on-campus resources for support at: <a href="http://writing.uwo.ca/">http://writing.uwo.ca/</a>

If, after the assignment review, a student still believes they have grounds with supporting documentation that their grade was unfairly calculated, they may request a formal appeal of the grade in accordance with the policy for academic appeals:

https://www.westerncalendar.uwo.ca/PolicyPages.cfm?Command=showCategory&PolicyCategoryID=1&SelectedCalendar=Live&ArchiveID=#SubHeading\_178

#### Attendance

Students are expected to demonstrate professional responsibility through regular attendance at, and participation in, all course learning activities. Much of the learning that takes place is a result of preparation and engagement with the material, as well as active dialogue with colleagues and faculty. Students are expected to organize their schedules such that weekly preparation for class is completed, and classes are attended, with consistency.

#### **Absence from Course Commitments**

Students must familiarize themselves with the Policy on <u>Academic Consideration</u> – <u>Undergraduate Students in First Entry Programs</u>

Students missing course work for medical, compassionate, or extenuating circumstances can request academic consideration by completing a request at the central academic consideration portal. Students are permitted one academic consideration request per course per term <u>without</u> supporting documentation. Note that supporting documentation is <u>always</u> required for academic consideration requests for examinations scheduled by the office of the registrar (e.g., December and April exams) and for practical laboratory and performance tests (typically scheduled during the last week of the term).

Students should also note that the instructor may <u>designate</u> one assessment per course per term that requires supporting documentation. This designated assessment is described elsewhere in this document. Academic consideration requests may be denied when flexibility in assessment has already been included. Examples of flexibility in assessment include when there are assessments not required for calculation of the final grade (e.g. 8 out of 10 quizzes), when there is flexibility in the submission timeframe (e.g. 72 hour no late penalty period), or when timed assessments (e.g., quizzes) are available over an extended period of time (e.g., when you are given a 72 hour time period to start – and finish – the assessment).

Please note that any academic considerations granted in this course will be determined by the instructor of this course, in consultation with the academic advisors in your Faculty of Registration, in accordance with information presented in this course syllabus. Supporting documentation for academic considerations for absences due to illness should use the <a href="Student Medical Certificate">Student Medical Certificate</a> or, where that is not possible, equivalent documentation by a health care practitioner.

## **Accommodation for Religious Holidays**

Students should review the policy for <u>Accommodation for Religious Holidays</u>. Where a student will be unable to write examinations and term tests due to a conflicting religious holiday, they

should inform their instructors as soon as possible but not later than two weeks prior to writing the examination/term test. In the case of conflict with a midterm test, students should inform their instructor as soon as possible but not later than one week prior to the midterm.

## **Special Examinations**

A Special Examination is any examination other than the regular examination, and it may be offered only with the permission of the Dean of the Faculty in which the student is registered, in consultation with the instructor and Department Chair. Permission to write a Special Examination may be given on the basis of compassionate or medical grounds with appropriate supporting documents. To provide an opportunity for students to recover from the circumstances resulting in a Special Examination, the University has implemented Special Examination dates. The Faculty of Health Sciences has set School-specific dates for these Special Examinations. Please speak with your instructor about the date on which the Special Examination for this course will be held.

#### **Student Code of Conduct**

The purpose of the Code of Student Conduct is to define the general standard of conduct expected of students registered at Western University, provide examples of behaviour that constitutes a breach of this standard of conduct, provide examples of sanctions that may be imposed and set out the disciplinary procedures that the University will follow. For more information, visit <a href="https://www.uwo.ca/univsec/pdf/board/code.pdf">https://www.uwo.ca/univsec/pdf/board/code.pdf</a>

#### **Scholarly Requirements**

All scholarly writing will follow the 7<sup>th</sup> edition of the *Publication manual of the American Psychological Association* (2020). All other types of writing will follow APA (7<sup>th</sup> ed.) format when citing or referencing another author's work or ideas. Failure to do so is unethical and is plagiarism.

#### **Academic Offences**

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following website: <a href="http://www.uwo.ca/univsec/pdf/academic\_policies/appeals/scholastic\_discipline\_undergrad.pdf">http://www.uwo.ca/univsec/pdf/academic\_policies/appeals/scholastic\_discipline\_undergrad.pdf</a>.

#### **Plagiarism**

Student work is expected to be original. Plagiarism is a serious academic offence and could lead to a zero on the assignment in question, a zero in this course, or your expulsion from the university. You are plagiarizing if you insert a phrase, sentence or paragraph taken directly from another author without acknowledging that the work belongs to him/her. Similarly, you are

plagiarizing if you paraphrase or summarize another author's ideas without acknowledging that the ideas belong to someone else. All papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between Western University and Turnitin.com (www.turnitin.com).

## Use of Artificial Intelligence for the Completion of Course Work

Within this course, you may only use artificial intelligence tools (e.g., "ChatGPT") in ways that are specifically authorized by the course instructor. All submitted work must reflect your own thoughts and independent written work.

## Re-submission of Previously Graded Material

Without the explicit written permission of the instructor, you may not submit any academic work for which credit has been obtained previously, or for which credit is being sought, in another course or program of study in the University or elsewhere.

## **Use of Statistical Pattern Recognition on Multiple Choice Exams**

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

## **Accessibility Statement**

Please contact the course instructor if you require material in an alternate format or if you require any other arrangements to make this course more accessible to you. You may also wish to contact Accessible Education (AE) at 661-2111 x 82147 for any specific question regarding an accommodation or review The policy on Accommodation for Students with Disabilities

## **Correspondence Statement**

The centrally administered e-mail account provided to students will be considered the individual's official university e-mail address. It is the responsibility of the account holder to ensure that e-mail received from the University at their official university address is attended to in a timely manner. Students are further expected to attend to announcements presented through Brightspace, and to read emails generated in this way.

#### **Use of Electronic Devices**

## **During Exams**

Unless you have medical accommodations that require you to do so, or explicit permission from the instructor of the course, you may not use any electronic devices (e.g., cell phones, tablets, cameras, smart glass, smart watches, or iPods) during ANY tests, quizzes, midterms, examinations, or other in-class evaluations. These devices MUST either be left at home or with your belongings at the front of the room. They MUST NOT be at your test/exam desk or in your pocket. Any student found with a prohibited device will receive an automatic grade of zero on the test or exam.

## **During Lectures and Tutorials**

Although you are welcome to use a computer during lecture and tutorial periods, you are expected to use the computer for scholastic purposes only, and refrain from engaging in any activities that may distract other students from learning. From time to time, your professor may ask the class to turn off all computers, to facilitate learning or discussion of the material presented in a particular class.

## **Brightspace**

All course material will be posted to OWL Brightspace: <a href="https://westernu.brightspace.com/">https://westernu.brightspace.com/</a>. If students need assistance with OWL Brightspace, they can seek support on the <a href="OWL Brightspace">OWL Brightspace</a> Help page. Alternatively, they can contact the <a href="Western Technology Services Helpdesk">Western Technology Services Helpdesk</a> online or by phone at 519-661-3800 or ext. 83800 for technical support. Current versions of all popular browsers (e.g., Safari, Chrome, Edge, Firefox) are supported with OWL Brightspace; what is most important is that you update your browser frequently to ensure it is current. All JavaScript and cookies should be enabled.

## Copyright and Audio/Video Recording Statement

Course material produced by faculty is copyrighted and to reproduce this material for any purposes other than your own educational use contravenes Canadian Copyright Laws. Unless <u>explicitly</u> noted otherwise, you may <u>not</u> make audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast any of the material posted to the course website.

## Contingency Plan for an In-Person Class Pivoting to 100% Online Learning

In the event of a situation that requires this course to pivot to online content delivery, all remaining course content will be delivered entirely online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on Brightspace for students to view at their convenience). The grading scheme will not change. Any remaining assessments will also be conducted online as determined by the course instructor

Note that disruptive behavior of any type during online classes, including inappropriate use of the chat function, is unacceptable. Students found guilty of Zoom-bombing a class or of other

serious online offenses may be subject to disciplinary measures under the Code of Student Conduct.

# **Online Proctoring**

Tests and examinations in this course may be conducted using a remote proctoring service. By taking this course, you are consenting to the use of this software and acknowledge that you will be required to provide personal information (including some biometric data) and the session will be recorded. Completion of this course will require you to have a reliable internet connection and a device that meets the technical requirements for this service. More information about this remote proctoring service, including technical requirements, is available on Western's Remote Proctoring website at: <a href="https://remoteproctoring.uwo.ca">https://remoteproctoring.uwo.ca</a>.

#### Statement on Gender-Based and Sexual Violence

Western is committed to reducing incidents of gender-based and sexual violence and providing compassionate support to anyone who has gone through these traumatic events. If you have experienced sexual or gender-based violence (either recently or in the past), you will find information about support services for survivors, including emergency contacts at: <a href="https://www.uwo.ca/health/student\_support/survivor\_support/get-help.html">https://www.uwo.ca/health/student\_support/survivor\_support/get-help.html</a>.

## **Support Services**

There are various support services around campus and these include, but are not limited to:

- 1. Academic Support and Engagement <a href="http://academicsupport.uwo.ca">http://academicsupport.uwo.ca</a>
- 2. Wellness and Well-being https://www.uwo.ca/health/
- 3. Registrar's Office -- http://www.registrar.uwo.ca/
- 4. Ombuds Office -- http://www.uwo.ca/ombuds/

The websites for Registrarial Services (<a href="http://www.registrar.uwo.ca">http://www.registrar.uwo.ca</a>), and the same for affiliated university colleges when appropriate, and any appropriate Student Support Services (including the services provided by the USC listed here: <a href="http://westernusc.ca/services/">http://westernusc.ca/services/</a>) and the Student Development Services, should be provided for easy access.

Students who are in emotional/mental distress should refer to Mental Health@Western (<a href="https://www.uwo.ca/health/">https://www.uwo.ca/health/</a>) for a complete list of options about how to obtain help.

#### **Social Media**

It is a breach of privacy and confidentiality, and highly unprofessional, to post information on any social media platform about:

- Peers
- Class activities/discussion
- Communications with professors

Students will be reported to the Associate Director (Western) or Associate Dean (Fanshawe). Such behaviour may compromise a student's standing in the program.
