

1. Describe your previous clinical experience in the area of wound care, including when you became involved and how involved you are in wound management (50 words or less).

2. It is strongly recommended that you complete some prior training in the wound care field before entering this advanced Masters degree. List in chronological order these educational experiences that you have attended (e.g. IIWCC, Wounds Canada Institute, RNAO Institute, OPA Wound Courses, NSWOC training, or other continuing education programs). Do not include wound care courses taken as part of your University degrees or College Diplomas. NO NEED TO APPEND CERTIFICATES.

Course Name	Organization Offering Course Instructors	Date (Year)/ Duration of Course

3. Describe current position(s) – include both paid and unpaid (volunteer) activities.

4. Provide a detailed description (approx. 500 words) of your reasons for undertaking the degree. Consider how you plan the knowledge, skills, and behaviours gained in this specialized wound care program can help you achieve your learning objectives and career goals.
