

POLICY: RESPONSE TO FIRE ALARMS			NUMBER: WP 23.1
			Page 1 of 3
PREPARED BY: Facilities Management (FM)	AUTHORIZED BY:  Elizabeth Krische	CLASSIFICATION: Work Procedure	EFFECTIVE: September 1, 2021
			SUPERSEDES: January 1, 2008

POLICY

Western University’s Facilities Management division (FM) must respond in a responsible, timely, and effective manner when a fire alarm is activated on University property or within a building under the control of Western. All fire alarm activations are to be treated in a uniform manner. This is an agreement between the FM and the Division of Housing & Ancillary Services and no changes can be made to this document without agreement by both parties.

PROCEDURE

After the receipt of a fire alarm, the Western Special Constable Service (WSCS) Communications Operator will notify:

1. During normal work hours:
 - a) For campus buildings: London Fire Department, Fire Safety, and Emergency Management, FM Client Services and Western Special Constables.
 - b) For traditional residences: London Fire Department, Fire Safety and Emergency Management, FM Client Services and Western Special Constables .
2. Outside of normal work hours:
 - a) For campus buildings: London Fire Department, WSCS Officers and On-call Electrician
 - b) For traditional residences: London Fire Department and WSCS Officers.

If the fire alarm is determined by Western’s Incident Commander to be a working fire within a building, or otherwise deemed necessary, the Western Incident Commander is to have the WSCS Communication Officer notify the Fire Safety and Emergency Management Manager (or designate) and/or Western’s Emergency Response Team (ERT) of the incident. If a residential building is involved, the Director of Residences and the Assistant Director of Housing Services are to be contacted.

Fire Alarm Duties:

- 2) FM Client Centre Staff:
 - a) If a report of a fire is received by a FM Client Services staff member, he/she is to record the person’s name, the type of emergency and the location of the incident. The FM Client Services staff member will then instruct the individual to evacuate the building or area and await emergency personnel to arrive and advise the emergency personnel where and what the emergency consists of. The FM Client Services staff member is then obligated to call WSCS via 9-1-1 to report the emergency.
 - b) If the incident involves a Western campus building fire alarm activation, an electrician is to be dispatched immediately by FM Client Services.
 - c) If the incident involves Western residential building fire alarm activation, an electrician is to be dispatched by the FM Client Services staff only upon the request of Housing, WSCS or Fire Safety and Emergency Management staff.
 - d) The FM Client Services staff are to dispatch the appropriate Physical Plant Personnel at the

- b) Evacuate the building.
 - c) Report to Western’s Incident Commander, identify yourself, and provide information relating to the incident.
 - d) **If a building’s fire alarm system is activated it is to be left in alarm/evacuation mode for a minimum of five (5) minutes unless directed otherwise by UWO Incident Commander.**
- 7) FM personnel requested to respond to a fire or fire alarm system activation:
- a) Respond to the incident with an FM-issued portable two-way radio tuned to emergency channel (memory 5). Radios are available at FM Client Services or WSCS.
 - b) Report to your supervisor or to the Western Incident Commander to receive directions.
 - c) Do not enter a building in alarm without the expressed permission of Western Incident Command.
- 8) Residence Staff:
- a) Upon discovery of a fire ensure the building’s fire alarm system is activated by pulling the nearest fire alarm pull station.
 - b) Evacuate the building occupants, do not use the elevators.
 - c) Exit the building and report to the Residence Hall Clerk and report all known information on incident location, conditions, building occupancy.
 - d) Call WSCS (9-1-1, 519-661-3300 or 83300) to confirm receipt of the fire alarm.
 - e) When or if authorized by Western’s Incident Commander, the Residence Manager or designate may attempt a fire alarm system reset. If the fire alarm system fails to reset establish a fire picket (as set out in the buildings approved fire safety plan) and silence the fire alarm system to allow re-entry to the building. Contact Western’s Incident Commander of the incident or the WSCS Communication Operator to have an electrician dispatched to the building to restore the fire alarm system. The Residence Manager or designate shall be available to meet the electrician and other personnel needed to ensure the building’s fire alarm system is restored to normal condition and is fully functioning.
 - f) Once the electrician verifies that the building’s fire alarm system is restored to normal operation condition and is fully functioning, the Residence Manager or designate can then cancel the fire picket unless directed otherwise by the Incident Commander.
 - g) A fire alarm system activation incident report shall be completed by the Residence Manager or designate and filed with WSCS, immediately following the incident of any fire alarm activation.
 - h) **If a building fire alarm system is activated unintentionally, it is to be left in alarm/evacuation mode for a minimum of five (5) minutes unless directed by Western’s Incident Commander.**

DEFINITIONS

Incident Commander: May be any Western Special Constable of WSCS or any member of Western Emergency Response Team (or designates). The Incident Commander has been authorized by the President to coordinate Western’s resources in response to any emergency incident.
