

Parking Services is currently renewing General Service Vehicle (GSV) permits for the 2023-2024 academic year.

Loading zones, service ramps and service vehicle parking spaces are established to facilitate deliveries and allow service access to University buildings.

In order to obtain a General Service Vehicle (GSV) permit, drivers must have a valid paid parking permit for this academic year.

All passes are issued electronically and linked to valid paid permits. Passes will not be issued to vehicles without a valid paid permit. Commercial vehicles requiring General Service Vehicle (GSV) passes will require commercial hang tags.

Faculty and Staff using General Service Vehicle (GSV) permits MUST also display a valid paid Western parking hang tag.

Available Service Permits for 2023-2024

Permit Type	Description	Cost
General Service Vehicle (GSV) permit	Valid at Honk Mobile spaces and Pay & Display areas for 60 minutes	\$30 each

****All zones are monitored regularly by Parking Enforcement staff***

As a guideline, Parking Services asks that General Service Vehicle (GSV) permits only be requested for individuals who require frequent access to these service/restricted areas.

Please submit completed forms for the 2023-2024 academic year to Parking Services (wparking@uwo.ca). All General Service Vehicle (GSV) permits from the previous year will be honored up to and including September 30, 2023. **Forms submitted after this date will not be accepted.**

Please note: Abuse of these permits affects the functionality of these areas and disrupts timely servicing of equipment, removal of garbage and delivery of material. In order to prevent such disruptions, Parking & Visitor Services reserves the right to withdraw permits that are used improperly.

Please direct any questions to: Western Parking Services email: wparking@uwo.ca
