

Mighty Dwarf® 26 Watt Vibration Speaker

LAVA Imports Inc.

LAVA Imports Inc. is a global leader in providing technology that's creative and relates to varied cultures. With production facilities overseas, the company's channel includes retailers throughout North America and distributor partners worldwide.

Mighty Dwarf® Speakers

Named for their compact size and inventive qualities, our new audio systems allow people of all ages to share music or conversation. Wires or no wires. With freedom of movement and expression of sound. Placement of a Mighty Dwarf turns any surface in to a speaker – that's bold and simple.

- The most powerful Mighty Dwarf® Vibration Speaker
- Connects to a wide variety of electronic devices using a standard earphone jack (cable is included)
- Produces rich sounds by creating powerful resonance in the flat objects it is placed upon – turning virtually any surface into a speaker.
- The sound produced covers the entire range of human hearing with a frequency range of 20 Hz to 20 kHz
- Universal 100 – 240 Volt power adaptor included.
- Bilingual retail packaging – English and French
